

# How our free ATM placement works

01.

## Location Agreement

To place your free ATM machine in your business we require a Location Agreement. This tells our ATM providers and transaction processors we can place an ATM at your location.

02.

## Free ATM Placement

We place the free ATM at your convenience. All we need from you is an outlet. Our ATMs are completely worry-free for you. We insure, maintain, and fill the machines.

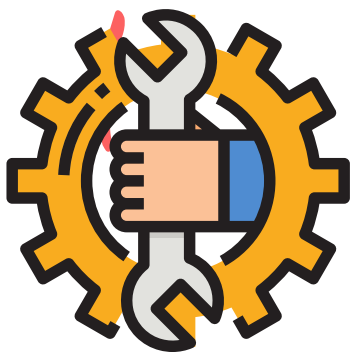

03.

## ATM Use

New and existing customers use the ATM machine. When customers use the machine we charge a small surcharge for use.

It has been statistically proven that ATM machines can increase business. This becomes especially true for cash businesses.

04.

## Fill Up

When the machines get low, we receive a notification and come to fill the machine.
